A YOLO MY TERY. Strange Disappearance of an Intended

[Copyright, 1887, by the California Associated Press.]
WOODLAND, August 18th.—August Fredner, a German blacksmith residing near here, has been missing for a week, and it is thought by the neighbors that he may have been foully dealt with. His horse and buggy were found in a livery stable at Davisville on the 16th. On the same day he was to have been married to a young lady in Sacramento. The intended bride, with her sister, came to Davisville at the appointed day, and taking a buggy from the livery stable drove out to the house of her intended lord, to find that the house was deserted and that he had not been seen for several days. Although he was somewhat in debt, it is stated that he had anot been seen for several days. Although he was somewhat in debt, it is stated that he had ample means to clear his obligations, and was doing a good business. The only object, his neighbors assert, that he could have in absconding, would be to escape the marriage. The German citizens are greatly wrought up over the occurrence. WOODLAND, August 18th.—W. R. Pond, of
Woodland, to-day began suit in the Superior
Court against George W. Woodard, of Yolo,
to recover the sum of \$6,000, claimed to be due
him for services rendered for making a sale of
a certain piece of land located in Capay valley. The compraint sets forth that the defendant, on the 26th of April, 1886, agreed to pay
the above sum to plaintiff if he should succeed in bringing him a purchaser for the
above-described property who would pay the
sum of \$38,000 therefor; that on the 29th day
of July the plaintiff brought and introduced a
purchaser who was able and willing to purchase the land from the defendant at the stated
price; that on the 29th of July plaintiff demanded his commission of \$6,000, which the
defendant refused to acknowledge.

PLACERVILLE, August 18th.—A committee canvassed the city to-day for funds to defray the expense of an appropriate exhibition of the productions of El Dorado county at the State Fair next month, and with their usual liberality our citizens contributed all that can be required in making such a display as will do the county full justice. Our fruit-growers, vineyardists, miners, lumbermen, and in fact the people generally, have entered upon the work with enthusiasm, confident of securing the capital prize offered for county exhibits.

A Homeless Mother and Her Bab

Caught in a Storm. Nogales, August 18th.—Terrific gales, accom-anied by a heavy rain and hail-storm, passed ver Calabasas, ten miles west of Nogales, at oon yesterday. Mrs. Manuel Quigada, a widow whose husband was murdered last June by oraghan, the mail contractor), with her thr hildren, had taken refuge in an unoccupiore, being driven from their home by the

ent floods.

The wind completely demolished the building, burying the ramily in the ruins. The wind olew in the front of the store, when the mother, with a baby in her arms, followed by her other wo children—2 and 4 years old—started to go out of the rear of the building, and had just eached the door, when the rear and side walls ell. The smaller girl was injured by a falling brick The smaller girl was injured by a falling brick and died soon after being dug out. The other girl was badly stunned and bruised, but it is thought that she will recover. The baby was hit in the head by a brick, but was wrapped up so that it sustained no serious injury.

Mrs. Quigada was badly hurt about the head and face, but not dangerously. The hallstones that fell during the storm were the largest ever seen in this part of the country.

TUCSON, August 18th.—Antonio Grijalva, from whom \$50 was obtained by Ignacio Gomez—ass mentioned in yesterday's dispatch—came to town last night, and hearing of Gomez' imprisment, voluntarily went before Judge Osborne and made a sworn statement exonerating the boy and himself from having obtained the money from the train robbers. The boy, Gomez, it appears, raised a field of grain on the old McCormick rauch, on the San Pedro. This grain he sold to Thomas Dunbar, but Dunbar could not pay him at the time Gomez worked for Grijalva, and while so employed Dunbar sent the money to Grijalva to pay Gomez. He sent two bills, one \$20 and \$50. The \$50 bill Grijalva gave Gomez, and retained \$20 himself.
This latter bill is now in possession of the officers. Like the \$50, it has been taken from Wells, Fargo & Co.'s envelopes, as the needlemarks are very plain. Dunbar will now be called upon to explain. This he can do, undoubtedly, as he is an old and well-known citizen of Tres Alamos. The money was paid Grijalva about four days previous to the last robbery. Consequently is can have no connection with it, but the officer think that possibly it is a portion of the proceed of the first hold-up. Sheriff Shibell, now supposed to be in Tucson, has been wired to go to Tres Alamos and interview Dunbar.

SALEM, August 18th.—At Turner, about 12:30 to-day, a young lady named Lydia Denyer was dangerously hurt by a freight train engaged in switching out empty cars to be left at a warehouse. Miss Denyer attempted to cross the track just as the engine was about to start, supposing she would have time before it got under way. She was struck and thrown some twenty feet away. She was taken up insensible and remained so at last accounts. It cannot yet be ascertained if her injuries are liable to prove fatal.

CITY OF MEXICO, August 18th.—The strike on the Mexican Central road seriously interferes with the running of trains, about fifty engineers have left their tocomotives with their firemen. The officials of the road are hiring all the competent men that can be found. Freight will be kept back from the United States until the freight engines can be manned. It is reported that some of the strikers now regard the movement as a bad blunder, and the question is beginning to be asked if Suter, who issued the order for the strike, as Chief of the Brotherhood of Locomotive Engineers of Mexico, did not usurp the authority belonging to Chief Arthur.

THE STRIKE VIRTUALLY ENDED. CITY OF MEXICO, August 18th.—The engineers' strike has collapsed on the end of the road, and all passenger and freight trains are running with their accustomed regularity between Mexico and Calera, and the business of the road is resumed. The strikers at San Juan del Rio endeavored to tamper with the track and to intimidate the engineers. They are being looked after by the authorities of that place. Rural guards have been located at all terminal points as far north as Jimulco, and a company of sudders will be stationed at Jimenez to quell any interference at that point. No more trouble need be

Cantaloupes. [Copyright, 1887, by the California Associated Press.]

New York, August 18th.—[Special.]—The Herald says: "California pears, peaches, plums and apricots are all much larger than fruit grown in the East, and were plentiful in Washington and Fulton markets yesterday. On one stand on Barclay street, outside of Washington Market, there were pears from California exactly twice the size of our Bartletts, and rosy with the blush of ripeness. They were marked 10 cents apiece, or three for a quarter. Big, dark, wine-colored plums were 40 cents a dozen, and made the reporter s mouth water. The white Muscat grapes had the same effect, and as for the peaches, they beat the best of New Jersey Crawford peaches in size and brilliancy of color, and were said to be delicious in flavor, but they cost if for a small basket, and by the crate they come at \$3 and \$3 50. A carload of cantaloupes direct from the Pacific coast, from Woodland, Yolo county, arrived yesterday, and were in excellent conduiton after their long journey. They were gobbled up by a limited number of fruit-dealers in double-quick time, and were held at high figures, a box of eight of them being worth \$5. There were California pears almost as big as the cantaloupes, selling at \$5 per box of eighty to ninety pears." Copyright, 1887, by the California Associated Press.

NEW JERSEY AND DELAWARE FRUIT. |Copyright, 1887, by the California Associated Press.|
NEW YOBE, August 18th.—[Special.]—The Mail and Express says: The peach season received a boom to day by the arrival of several trains from New Jersey and Delaware fruit centers. The Jersey peaches are large and in excellent condition, and the specimens from Delaware are small in size. "From this time on" a commission broker said to-day, "Delaware and Jersey peaches will come in with a rush. Spiendid fruit of this kind can now be had for 75 cents and \$1 a basket. This price will hold until the first of next week, when it is likely it will go way down. The fruit is larger and jucier than it has been for years. I think it is safe to place the sales of the last week at 1,000 bushels and crates in this city alone. When the season is at its hight this amount will probably represent the average daily sales." A GREAT INDUSTRY. Can California Begin to Supply the Pre-

In Chicago, as elsewhere, the stocks of dried and preserved goods are about exhausted and owing to the scarcity of labor on the Pacific coast cannot be replaced, although wholesale prices here have risen from 10 to 15 per cent. Canned goods, especially fruits, are apparently going to retail during the winter at fully 50 per cent. shove the prices a year previous." According to the Tribune, an increase of 25 per cent. to California's last year's pack will not be enough to prevent the threatened famine in the East.

The grape and peach-growing sections of the West and South have suffered from drought, which has ruined the prospects of these fruits, and Eastern crops are not much more than enough to supply the home demand.

It is not wonderful, therefore, that dealers in canned fruits are both active and anxious. They are suddenly called to face a situation which was entirely unexpected two months ago. Then they were tending all their energies to the endeavor to enlarge their trade. Now they are

CAN'T GET THE GOODS.

His house has ransacked the country, and has sent men to the Atlantic and Pacific slopes, but they can't find stuff enough to fill his orders. The consumer has helped to aggravate the situation. Canned fruits have been so cheap finiate years that many a housewife resolved at the beginning of the season not to "put up" any fruit, and the scarcity of fruit in her neighborhood only strengthened her determination. She has excused herself to her friends with the assurance that it did not pay to can anything when one could buy it already canned for less than the sugar cost. The effect of this policy has been felt by grocers handling fruit-jars, for which wholesalers here say there has been no call whatever this summer. But now, not only must the housewife pay double what sne expected to pay for canned peaches, but even prunes—the cheap and famous substitute for home fruits—are threatening to climb to the hights now occupied by such huxuries as grape preserves and raspberry jam. CAN'T GET THE GOODS.

Mr. Wood had been troubled with sleeplessness for some time and resorted to chloroform for relief. Business in Hollister detained him until a late hour less than the physician say he is in no immediate danger, though he must be closely watched. He is unable to lift himself without help, and lies most of the time partly unconscious, and seems to be in a dying condition.

A LIVELY TIME The United Labor Party and Its Social

Allies.
SYRACUSE, August 18th.—When the United Labor Convention assembled this forenoon, the Committee on Credentials made its report. The committee had been in session all night, and had a lively time. In almost all cases they reported in favor of seating the delegates. This shows that the Socialistic element received but little attention from the committee.

The Socialist members of the committee submitted a long report in favor of seating the contesting delegates. A lively debate followed, and although the speeches were limited to five minutes each, the matter had not been settled at 1 o'clock, at which time the Convention took a recess until 3 o'clock. at 1 o'clock, at which time the Convention took a recess until 3 o'clock.

London, August 18th.—The Bulgarian situation is less threatening than it seems. The hostile language addressed by the St. Petersburg Gazette to Prince Ferdinand is only what was expected, and the effect must have been discounted. Such menaces must remain brutum fulmen unless Russia is prepared to go to war and turn Ferdinand out, which she is not. the Porte, and there is no danger there from that sid 2.

No European power formally sanctions Prince Fert linand's occupation of the Bulgarian throne, been, ase his election was not made in conformity with the treaty of Berlin. Russia, in fact, is sus, oected of conniving at the situation in order to have a pretext for alleging that the treaty was violated with the acquiescence of the other nowers, and therefore declaring herself no longer bound by it. This seems to be fartethed. Russia is indifferent to European onlinen, and will never be at a loss for a pretext when she thinks the moment has come for abrogating that or any other treaty. What the other Powers now intend to do is to continue transacting the treessary business with Ferdinand, as they did with the Fulgarian Regency. London, August 18th.—The gladness and bege which fills the Liberal party is well expressed by the Liberal leader in two letters and by Lord Rosebery in one speech. "I have done my best," says Gladstone, "to remite the fiberal party, and except inside the House of Commons I am quite satisfied with the result thereof." That phrase denotes with accurred the prevailing conviction among the Liberalsthat Liberal-Unionism, though still a great force in Parliament, has vanished from among the voters. Not less clearly does Gladstone, who can be clear and even concise when he chooses—express in his letter to Brunner the faith of his party in the coming conversion of the country to home rule.

Gladstone, I hear, is by no means impatient. He thinks things are moving fast enough. The sinister calculations of the Tories on his failing strength or increasing years disturb him not a jot. He has seldom been younger, hence his remark to Brunner. What he likes best is the largeness of his majority in Cheshire, because, though it is desirable in his judgment that the change in favor of Ireland should be speedy, it is still more important that it should be decisive.

TO-DAY'S LEADING NEWS TOPICS. The fruit industry of California continues to awaken great interest in the East. It is thought that Jacob Sharp, convicted of bribery in New York, cannot live many days.

Cholera continues its ravages in Italy, and it is feared that it has even reached Rome. There is a rumor in London that the Govern ment is about to formally proclaim the National League in Ireland.

There is a daily increasing demand for desir able real estate and residence property in most of the agricultural sections of the State

THE RAILROAD INVESTIGATION.

In common with the general public we have patiently followed the investigation that has been in progress by a Federal Commission at San Francisco into the affairs of the Central Pacific Railroad Company; and in common with the general public, too, we have waited in vain for any disclosures that in the slightest degree re flect upon the management of the builders and operators of the Central Pacific system On the contrary, all that has come out does credit to their foresight, prudence and patriotism.

It is not the purpose now to review the investigation, as will be done when the examination shall have been finally concluded, but we cannot permit time to longer elapse without expressing what is unquestionably the overwhelming burden of public opinion, that the investigation of the committee bed first seed a committee before the El Dorado Board of Supervisors to urge contribution to a fund to secure a creditable exposition of the products of El Dorado at the State Fair.

This committee had first seed a committee had for the regular arms in the results of the regular arms in the r amination shall have been finally conof public opinion, that the investigation has signally failed to disclose anything de rogatory of the Central Pacific Company. And this announcement of the public verdict, and the judgment of every unbiased mind that has followed the inquisition must be received with the fact full in view that the investigation by the Federal Commission has been prosecuted along every conceivable line of inquiry that the ingenuity of shrewd lawyers and relentless inquisitors could conjure to their aid.

We have no intention of calling into State Fairs for a long series of years, it is question at this time the devotion of the Commissioners to what they conceive to be to such conclusion." They may have con- Such public spirit in every county would ceived it to be their duty to have thus make the State Fair in 1887 the finest ever proceeded, but the outcome will scarcely justify the harsh policy they have adopted, or the gratuitous onslaught they have made through the avenue of innuendo and direct charge upon private character.

Primarily, the investigation was projected upon the theory that the Govern- ship in distress, and some of the brave ment, as a creditor, has the right to in- fellows lost their lives in the attempt to rire into the capacity of its debtor to pay, when its obligations shall fall due, with a view of enabling it, if need be, to fulfill lantry of the Life Service men by forwardall lawful calls the Government may make upon it. But from this purpose it is plainly apparent the investigators have panied the purse with two gold watches deflected, to the extent of engagement in for the survivors of the Service crew an attempt to prove that the Central Pa- Thereupon the New York Star bitterly recific Company has diverted its funds to build branch roads. This effort has failed recognition of the heroism of the men, and -wholly, utterly and signally failed-notwithstanding that the most superhuman efforts have been made to reach a different

Of course the object has been to prove that the branch lines are subject to the Government mortgage. Could the investigation have shown that the Central Pacific funds had been used for the construction of the feeders of the Central Pacific line. there would have been laid a foundation for the effort to bring such feeders under the Government mortgage held upon Central Pacific property.

It is sufficient that men such as Governor Stanford, whose reputations cannot be tarnished by any assault such as that under notice, have, by this investigation, been afforded the long-desired opportunity to give the flat, unqualified and emphatic lie to this much-mouthed and insinuated charge. To that extent the Federal Commissioners have done the railroad builders of California eminent service, and have likewise imposed lasting obligations upon the fair-minded and unbiased men of California for the settlement, beyond peradventure and resurrection, of the demagogic

The disposition is strong to inquire by topical processes into the animus that has actuated the Commission in its radical and irregular methods of inquiry, not to say its rude procedure, and its assumption that it is dealing with men criminal in intent and act, and who are seeking to swindle the Government. But we forego it. For the present it must suffice to say, that in the face of what certainly appears to be procedure actuated by political partisanship, in the effort to crush political opponents of the Administration, the officers of the Central Pacific Railroad Company have been given even broader, firmer footing in public confidence than ever before, and for this the Republican party may also be thankful, for the sheme is underlaid by

Late to-night the Artillery Band serenaded the regulars' camp. It was a delicate compliment, and received as such Colonel Guthrie requests a correction to cause he was unable in the crowd demanding \$1,000 to be distributed among the widows of the drowned sailors, and accompanied the purse with two gold watches for the survivors of the Service crew.

> to the setting sun, as we have in the artil-lery camp. But the regulars have a more faithful signal. A donkey, demure and patient, and that is used only for the purpose of holding a halter to a stake, and of carrying Colonel Shafter's little boy on its back, has learned all the calls of the hours. At sunrise he blows his peculiar horn and is heard far and near; at sunset he brays as never donkey brayed before; "reveille is no sooner due than his "hee haw! he haw!" echoes along the rocky bluft back of the camp. "Assembly" hour needs no tap of the drum, for his Jackassinip thunders harshly, hoarsely through the camp his nasal note. He knows to a second the moment for guard mount, and that call of all most delights him, his guffaws then rollicking through the air like the joyous

tones of a trumpet. But "supper call" reaches the depths of his soul, and he anicipates it by a series of snorts and neezes and rasping hee haw sneezes and rasping hee haws that fairly make the dry grasses below the parade ground bend to the earth. The donkey knows that at that hour come his evening meal, and he expresses his delight thereat. Through the night, as the sentinels shout, "Half-past one, and all's well," the faithful servant of Colonel Shafpremises, fronting Santa Clara street (or Alum Rock road), Julian street (or McKee road), McLaughlin, Breyfogle, Hale, Fairbrother, Wooster, Barnes and Owens avenues, 300 choice residence lots. The condition of the Sacramento, from the Feather down, is such as to cause much gratification to those who desire it to con-tinue a navigable stream, and shows what tinue a navigable stream, and shows what improvement may be expected in a few years it hydraulic mining is suppressed. The Feather is now quite clear and rapid, and the mud poured into it by the Yuba almost disappears before it reaches the Sacramento, which is a stream of fine appearance until its junction with the American, which discolors it considerably, though fortunately the volume of water from the atter river is at present quite small.

It is worth taking a walk to the Sacramento and Yolo bridge to look at the river,

A BOOMER'S THEORY.

He Gives the State Board of Equalization Some Booming Suggestions. The members of the State Board of

Equalization are all at the State Capitol this evening, but it is not visible in the wrestling with long columns of figures. wrestling with long columns of figures. Messrs. Wilcoxsen and Morehouse are payof Sacramento county. They refuse to say operations. She found the upper river in much about it, but insinuate that a little raise would not hurt anything. They are omparing recent sales of real estate with the assessed value of the property, and say that the "boom" must have struck each particular piece since the Assessor saw it. They are of the opinion that J. W. Houston came nearer assessing the property of Sacramento county in accordance with the Sacramento county in accordance with the law than any Assessor that has succeeded him. A gentleman who appeared before the Board yesterday, said he represented the "boomers," and asked that the entire State assessment be elevated 50 per cent. When asked for his reason, he replied: "Well the State has only so much more Well, the State has only so much money to raise any way, and an increase all along the line will make no difference to the taxpayer, and he will have that much more payer, and he will be a fine thing to go East, that the assessable property in this State has increased \$500,000,000 in one year. It will give us a big send-off, and bring in

many millions for investment."

One of the members asked him how about the county tax, and the "boomer's" agent replied: "Oh! they will in that case, raise so much money this year that they won't need to levy any tax next year, and a rich country without taxation will capture all the surplus millions east of the Rockies." He regarded this as a brilliant financial stroke

When asked how much he was assessed for, the "boomer" replied that he had not a dollar in the world, but if his suggestion was acted upon he thought he could "catch on" to the tail-end of the boom. Chairman Wilcoxsen said if the man's

theory was correct, he saw no reason for not increasing the rolls one hundred per cent. He did not believe in making two bites of a cherry.

The Boom Fund.

The committee of five appointed by the Executive Committee of the Citizens' Improvement Association to raise a "boom fund," met with the subscribers to the fund out in places one-third the width of the river; this season the river runs along handsomely from bank to bank. Above last evening. The meeting was called to order by the Chairman of the committee, gue, was brought to the Railroad Hospital order by the Chairman of the committee, V. S. McClatchy. After consultation, it slough. The channel made by the dredger when it passed through the old bed of the American last year is obliterated; in fact, the sandbar at that point is four or five feet the subdivision of the land for actual set-tlement. Frank Miller, D. Lubin, V. S. McClatchy and J. M. Avery were appointed a committee to receive subscrip-tions to the fund. It is proba-ble that this enterprise will take the form of a joint stock organization, with shares of \$100 each, the capital stock being increased over the \$25,000 originally suggested if found desirable. There is a strong belief that this is the key to a real, subtantial "hour" for Sorganization of the strong belief that the strong the strong of the strong strong the strong of the stro stantial "boom" for Sacramento city and county, and that a system of irrigation once established, the enterprise will progress of its own merit, as, a channel once outlined, water running through it goes far toward constructing a canal. The boom organization, after the owners of country property have put their shoulders to the wheel and commenced in earnest to work out their own salvation, can then devote their attention to profitable improvement in the city. The committee will meet again next Monday evening.

Clunie Opera House. Patrons of the theater will have an opportunity for great enjoyment furnished this evening by the production of "Old Lavender" at the Clunie by Edward Harrigan, the popular comedian and author, supported by his strong company of East-ern artists. The play will be placed upon the stage in the admirable manner that characterized its successful presentation in San Francisco, and Dave Braham's orchestra will furnish the incidental music. press of the East, as well as of San Franhas spoken very highly of the efforts of Mr. Harrigan and his company in the play, and the New York Herald indorsed him on its first presentation as follows:
"The play is well mounted and capitally cast. Mr. Harrigan as Old Lavender has stepped far up the ladder, showing not only his ambition but his capacity. In pathos, in pure sympathetic comedy he pathos, in pure sympathetic comedy, he displays quick intuitions, and a a full horizoned appreciation of situation which drew from an attentive audience immediate recognition. Ned Harrigan scored a sucback. 'Old Lavender' is on the boards for an indefinite period, and that tells the

BOYS' CLOTHING.

Boys will be boys, and ere they are a dozen years old cost parents, schoolmaster and clothier no small amount of thought. For us the perplexing problem is: "What will he like? What will his parents like?

Our answer is: In a heavy stock of substantial clothing—the best work of the best makers. There are a thousand and one little points about such clothing to be seen, not read about. But in a general way we have sought to express this thought in our clothing—that the boy should not be a caricature of a man; that his infant life should not be dwarfed with the garments of maturity, but that there should always linger about his dress something of a childlike grace and simplicity. And it is this happy touch, as well as conscientious workmanship and low prices, which gives the doings of this department such vigor

aising of horses, cattle and sheep, and realizing large profits from the business

CITRUS FRUIT-GROWING. Here may be found orange trees which ear annually large burdens of fruit; limes and lemons are also grown, but not in large quantities, as the attention of the farmers' of this section has only recently been called to the cultivation of citrus fruits, but of sufficient quantity and excellence to fully demonstrate the fact that citrus fruits may be grown successfully in this region, and, as there is a great deal of land vet open and available to the purpose, and a railroad from Marysville to Smartsville a railroad from Marysvine to Smartsvine is spoken of as a certainty, which will supply a ready means of transportation, it is not presumption to predict that in a few years this section of Nevada county, lying within the citrus belt, will be in the pos-session of fruit-growers who will make for it a name in the long list of fertile and famous regions of the Pacific coast.

ADVANTAGEOUS TO SETTLERS. The most important feature of this land The most important leature of this land is its adaptability to the wants of the settler. Nature has here placed her store house at his disposal. She has given him a climate which is seldom or never vexed y "cold snaps," and even frost is com aratively unknown, while the hottes days of summer are devoid of that sultriness which is a marked characteristic o many of the States of the East. The hot est days are generally followed by cool nights, and gnats, mosquitoes and other pests which render the nights unbearable further south are not known here, or are present in a very limited degree. The greater part of this land can be irrigated,

and may be made to PRODUCE THREE CROPS OF CLOVER HA EACH YEAR, An important fact for the consideration An important fact for the consideration of the immigrant who has been accustomed all his life to the raising of single crops. There is always a good market for the productions of the farm in this county, whether hay, grain, fruit or vegetables, and a small tract rightly managed can be made to yield large profits to the owner. As before stated, deciduous fruits grow to perfection, eitrus fruits thrive, fuel grow to perfection, citrus fruits thrive, fuel is abundant, the water supply unlimited and land cheap and easily obtained, stock-raising successfully pursued, and above all the climate is the healthiest in the world. It is a veritable "land of homes," and those who are seeking homes or places to make homes cannot do better than to visit his region and see for themselves that the outhwestern part of Nevada county is not

A Healthy Stomach RYE—Quotable at \$1 35@1 40 for new and \$1 50 dyspeptic countrymen and women sigh in vain, and to obtain which swallow much medicine unavailingly. For no ailment, probably, are there so many alleged remedies as for dyspepsia. The man of humbug is constantly glutted with the dollars and dimes of those who resort to one nostrum after another in the vain hope of ob-taining relief, at least, from this vexatious and obstinate malady. Experience indicates Hostetter's Stomach Bitters as a means of eradicating dyspepsia, in which a firm reliance can be placed. No remedy has in three decades and over established such a reputation, none has received such unqualified professional sanction. It is an admirable invigorant, because it enriches the blood, and not only this, but it thoroughly regulates the bowels, kidneys and bladder. The nervous symptoms are usually

A Toilet Luxury

In every respect, Ayer's Hair Vigor never fails to restore the youthful freshness and color to faded and gray hair. It also prevents the hair from falling, eradicates dandruff, and stimulates weak hair to a vigorous growth.

Five years ago, my hair, which was quite gray, commenced falling, and, in spite of cutting, and various preparations faithfully applied, became thinner every day. I was finally persuaded to try Ayer's Hair Vigor. Two bottles of this remedy not only stopped the hair from falling, but also restored its original color, and stimulated a new growth.
